THE CHIEF A WEEK

SOLDIERS CONFINED IN CAMP

Galveston Today is Under Form of Martial Law

RIOTERS FIRE HOUSES

Police Department Reinforced by Picked Men From Army.

TWO DAYS OF THE MEXICAN WAR.

Torreón — Three hundred rebels tearing up railway track, defeated in two engagements with 100 fedes. Sixty rebels, two Americans reported to be in the number, and 20 federals killed.

Aguia Prieta — Thirty-five killed in battle between 300 rebels and 500 government troops, rebels finally retreating.

Mexico City — Band of 120 insurrectos cut to pieces at San Bartolito Puebla. Fifty reported slain and 27 captured.

Tia Juana, Lower California — Armed bands pillaging ranches, numerous casualties being reported.

Galveston — Soldiers attacked negroes and Mexicans in the red light district after finding a soldier from Camp Crockett lying in the street with a knife wound. Two houses fired by soldiers. Police and fire department called. Several minor injuries.

Galveston, Tex., March 12 — With 1200 American soldiers confined in camp by orders of the commander to prevent a renewal of attacks of Mexican residents by troops, in which one soldier and one police officer were injured yesterday Galveston today is under a form of military law. A provost guard of 25 men patrols the streets of a segregated district occupied chiefly by Mexican and negroes. Winfield Joel, a private of Company 144, from Fort Monmouth, is the first wounded patient in the military hospital. He will recover. Col. C. J. Baile, restriction of camp leave to not more than 15 a day and the placing of a military guard in a thickly populated part of the city followed a fierce fight early yesterday morning between visiting troops and Mexican and negroes. The burning of two houses, fired by the rioters, brought out the fire department, reinforcing the police, but the outbreak was no quelled until Col. Baile and 50 picked men, summoned by the police, arrived on the scene.

Twenty-five soldiers who had engaged in altercations with Mexican and negroes were marched back to camp and placed in the guard house. Officer Patrick Reagan was stabbed three times when he attempted to subdue the disturbance. Winfield Joel received a serious knife thrust in the side and several soldiers were felled by clubs in the hands of Reagan and other patrolmen.

The fight started when the soldiers, given freedom to leave camp entered the houses where they found Mexicans and negroes. Furniture was demolished, the occupants routed and the structures set on fire.

El Paso, March 12 — Following Diaz's suspension of the constitution Madero, rebel leader, has issued orders to his troops to show the federal to mercy. This order was probably prompted by the butchering of the wounded rebels at Cassa Grandes from now on it looks like a fight to the death, with bullets for the wounded after the battle.

REPUBLICANS WILL SEEK NEW LEADERS AT THE COMING SESSION OF CONGRESS

With the opening of the new Congress there will come a realignment of forces particularly in the Senate among the Republicans. Old leaders will have departed and new ones will take the reins. Among those who will exercise great influence in the majority in the Upper House are Senators Warren, Smoot, Lodge and Gallinger, while Senators Penrose and Root also will have much to say to the conduct of Republican affairs. Just who will succeed Aldrich as the real leader does not yet appear, but anyone of those already named have a chance for the honor.

San Antonio, Texas, March 12 — Feverish haste is noted today in re-

crutting troopers for the ninth and eleventh regiments of cavalry, believed to be the first due to see service along the Mexican frontier. Both of these crack cavalry regiments are far below even peace strength and when combined hardly equal to a full regiment on war footing.

Nearly 300 recruits have been rushed to San Antonio and attached to the eleventh, which now numbers 1300 men, or within 100 of war strength, and a similar number of men is being sent from various recruiting stations to fill out the number which is due tomorrow from Fort E. A. Russell.

Army officers believe these two regiments will leave this week for garrison duty along the border to aid the already overworked troops now along the river, preventing smuggling of arms and ammunition.

They confirm the report that Madero has been unable to make another assault on the town, but is awaiting reinforcements which are en route. The latest advices say that Lieut. Col. Giuseppe Garibaldi and L. G. DeLara, at first reported killed, are alive, though wounded. Capt. Eduardo May, personal aide to Francesco Madero, is a prisoner.

Madero in a letter received here says that the defeat was due to a blunder by his scouts. They were sent out to locate the federal reinforcements under Col. Cuellar, but failed to do so, and the latter, attacking the revolutionary army in the rear, cut the American artillery company to pieces and compelled the main army to retreat.

El Paso, March 12 — That the fighting at Casas Grandes, in which Madero's company of American artillerymen was practically wiped out was the fiercest of the revolution so far, was further indicated today by the refugees' stories who reached this city.

Douglas, Ariz., March 12 — Another fierce engagement between the federals and insurgents at Agua Prieta, Mexico, is imminent today. Captain Johnson, commanding the troop of the Third U. S. Cavalry on duty here, today received a dispatch from Laborio Vasquez, commissario of police at Agua Prieta, reporting that General Jose Blanco, the insurrecto leader, was returning to the attack on the town after having been repulsed by Col. Mora's federal force noon yesterday. Intense excitement immediately followed the receipt of this news and the U. S. Cavalry at once turned out and took up a position along the border to prevent violation of the neutrality laws.

Practically every man, woman and child in Douglas witnessed the engagement. Americans in autos roared the border during the engagement and brought back the federal dead to Agua Prieta.

San Diego, Cal., March 12 — Matters of more import than the Mexican revolution have caused the mobilization of the arms and the concentration of naval forces near here. This belief is growing rapidly among officers because of frequent interruptions of the wireless by which Admiral Thomas directs his fleet. It is rumored the Japanese are responsible for this interruption. Thomas' messages are picked up by an unknown station off the coast which refuses to identify itself. Operators at this could only be a vessel.

El Paso, March 12 — Following Diaz's suspension of the constitution Madero, rebel leader, has issued orders to his troops to show the federal to mercy. This order was probably prompted by the butchering of the wounded rebels at Cassa Grandes from now on it looks like a fight to the death, with bullets for the wounded after the battle.

KENTUCKY KILLINGS CONTINUE

Eleven Have Met Death During Past Couple Days

THREATS OF DYNAMITING

Have Been Made to Officials of Railroad Unless Negroes are Discharged.

Somerset, Ky., March 12 — All traffic on the Queen and Crescent route between this city and Chattanooga, Tenn., is at a standstill today as the result of the armed clashes between the striking firemen and strike breakers in which eleven have already been killed and a dozen or more wounded. The strike results from the refusal of the railroad officers to give assurance that white firemen would have preference over negroes in the matter of promotion. BOYS MEETING AT THE Y. M. C. A.

The meeting for the boys at the Y. M. C. A. yesterday afternoon was the best ever. We have had some mighty fine meetings this fall but the one yesterday was the best ever and follows that is saying something.

Rev. Mr. Bennett had for his address yesterday afternoon "The Shadow of the Cross," and his talk was very interesting to all the boys and his slides on the subject were very beautiful.

Boys, if you are missing any of these meetings you must get busy and come out. You can't afford to miss them, as they are for you and their is something good for you at every meeting. The Denison quartet turned in some very beautiful music that was highly appreciated by every one in attendance.

Next Sunday we are going to have Fathers' and Mothers' day and we are surely going to have a fine time.

We will also have our old friend "Gid" with us and he will have something to say to the boys. Come out fellows and hear what he has to say. Meeting starts promptly at 2 p. m. Good music and a good time for everyone.

CATARRH IS SURELY A DANGEROUS DISEASE

Thousands of people allow catarrh to slowly undermine the whole system until a serious disease develops—sometimes consumption.

People who have catarrh should use every effort to get rid of it, but should above all adopt a sensible method.

Stomach dosing, sprays and douches won't cure catarrh because it is a germ disease, and the germs must be destroyed before the disease can be conquered.

HYOMEI is the one sensible cure for catarrh because it reaches every fold, crevice and nook in the mucous membrane and gets where the germs are. You breathe HYOMEI and as it passes over the inflamed membrane its sooty influence heads the soreness and destroys the germs.

A complete HYOMEI outfit costs \$1. This consists of a bottle of HYOMEI and a hard rubber inhaler. Pour a few drops of HYOMEI into the inhaler and breathe it a few minutes each day—that's all you have to do. It is guaranteed by Evans Drug Store, and druggists everywhere to cure catarrh, coughs, colds, and sore throat or money back. Extra bottle of HYOMEI costs 50 cents. Free trial sample on request from Booth's Hyomei Co., Buffalo, N. Y.

Several men were fined five dollars and costs for carrying concealed weapons. Some drunks were given the usual fine and three or four drunks were discharged.

New York—Fined \$25 for begging John Murphy, a teamster, was asked if he had this sum. "If I had that much I'd get married," he replied.

PRISONERS

Were thick for Police Court Monday Morning. Forty-five Answering the Roll.

The police nearly made a record from Saturday noon until Monday morning, there being forty-five arrests made in that time. The offenses were mostly of a minor character, such as drunkenness, disorderly conduct and prowling. Four Hungarians were arrested in West Main street in the building formerly occupied by the Star bakery. Saturday evening, and fined \$5 and costs for disorderly conduct, while on Sunday evening two houses on Wehrle avenue occupied by foreigners were raided and John Tatam with 22 others were arrested. This morning Tatam was fined \$15 and costs for keeping a disorderly house and the others \$5 and costs each of which was paid.

Several men were fined five dollars and costs for carrying concealed weapons. Some drunks were given the usual fine and three or four drunks were discharged.

FRANK GRIEF UNDER KNIFE OF SURGEON

Amputation of Right Leg to Occur at the Sanitarium Tuesday Morning.

Frank (Flicker) Grief's right leg will be amputated about eight inches above the knee by Dr. D. M. Smith at the Sanitarium Tuesday morning at 10 o'clock. Arrangements have all been made, and the patient has resigned himself to the fact that this operation is absolutely necessary if his life is to be saved, and is hopeful of the outcome, although he also realizes that the chances of ultimate recovery are against him.

He has been in the sanitarium for the past several weeks, undergoing systematic treatment, so that every reinforcement may be given his weakened constitution to withstand the profound shock attendant upon the amputation.

The history of Grief's condition is generally known. Last summer he was indicted for murder in the first degree by the special grand jury, in connection with the Etherington lynching, and confined in the county jail. At the time he was on crutches as a result of an injury to his knee while cranking his automobile. The confinement in jail, where it was impossible to give him proper treatment, caused the leg to grow rapidly worse, and a tubercular condition began to show itself.

A half dozen of Newark's leading surgeons examined Grief and filed affidavits in the common pleas court that unless he was allowed to go some place where the leg could be properly looked after, his life would be endangered, and an operation would become imperative. These affidavits accompanied a request of Grief to be allowed to go to the sanitarium and he agreed to bear the expense of a guard, day and night, while there, but the request was denied, and for five and a half months he remained in the county jail, with the result that amputation is now immediately imperative.

In view of these circumstances, pressure was brought to bear Monday morning upon the attorneys prosecuting the case to have the indictment for first degree murder against Grief quashed, in order to get the beneficent psychological influence which would come from the resultant freedom from worry.

The leg at the knee measures 18 1/2 inches and there is no flesh below, and for about 10 inches above the knee it is shriveled to almost nothing.

STATE PRIZE

Banner Presentation to Cedar Camp No. 4727, M. W. of A.

The prize state banner for the state of Ohio will be presented to Cedar Camp, No. 4727, Modern Woodmen of America for making the largest gain in membership of any camp in the state of Ohio, on Tuesday evening, March 14, at the high school auditorium, by Supreme Lecturer Charles E. Whelan of Madison, Wis. This banner is contested for each year by the camps of Ohio and the one who adopts the most beneficial members during the year is awarded the banner. Cedar Camp entered the race for the banner for the year 1911 and by a great deal of good work by the members succeeded in winning the coveted prize. Action Camp, No. 234, did the banner for the years 1910 and Dayton Camp, No. 3526, did it for the year 1909. By special request of the officers of Cedar Camp, Supreme Lecturer Charles E. Whelan has been secured to make the presentation address. Neighbor Whelan presented the banner to Cedar Camp when it won the banner for being the largest camp in the state of Ohio, and all who heard his address on that occasion were very much pleased with it. He is one of the greatest entertainers of the Modern Woodmen lecturers. The committee on arrangements have a good program arranged and all Modern Woodmen, their wives and friends are cordially invited to be present on Tuesday night. All seats are free.

WILL EFFECT A PERMANENT ORGANIZATION

The men's union meeting was held Sunday afternoon in the First Congregational church. A large number of men was present and showed increased interest in the work. The men have not during the entire series sung better than they did yesterday.

R. C. Armentrout presided and led the devotional part of the services and Dr. E. S. Rothrock of Cleveland delivered a very helpful address on organized effort. Dr. Rothrock's experience with federated men's work enabled him to impress facts that were very helpful.

The committee previously appointed looking to the advisability of effecting a permanent organization reported and their report was accepted. A committee consisting of Rev. F. E. Vernon, E. Cary Norris and Matthew Heck was appointed to draft a constitution for the organization. A committee consisting of Cyrus G. Nevins, Loring K. Sage and R. C. Armentrout on nominations to nominate an advisory committee of 15 men out of whom will be elected the officers of the organization. These committees will report next Sunday, at which time the organization will be completed.

The meeting next Sunday will be in the First Presbyterian church. E. H. Staunghaupt will preside and Hon. John G. Cooper, member of the Ohio legislature and a locomotive engineer of Youngstown, will speak to the men. This will be an opportunity for laboring men to hear one of their own tell of the personal work that men do for the uplift of their fellow men.

INVITATION TO OUR GRANDPARENTS

Our grandmothers and grandfathers, or anyone over eighty years old, living in Licking county will be admitted free all day tomorrow to the Loan Exhibit. A desire was expressed to see the older people of the passing generation, come in greater numbers to enjoy the collection there of the many useful and ornamental things, prominent in their younger days—and so an invitation is extended to them all. They will be most welcome during any time of the morning or evening. Any among them who will register their ages while there will be entitled to compete for the prizes to be given to the oldest. A handsome prize will be given the oldest married couple, another one to the oldest lady, and another to the oldest man. The prizes will be taken to the residences of those entitled to them Wednesday morning by a committee. Be sure to persuade your grandfather and grandmother to come for they will enjoy a chat with their elderly friends, and friends are cordially invited to the exhibit will be most interesting to all. Seats are free.

OHIO METHODISM'S MOST VITAL AND GREATEST INTEREST THE FORWARD MOVEMENT

Ohio Wesleyan University Within Thirty Days of the End of the Most Important Campaign In Its History---What the University Is and What It Stands For.

Ohio Methodism's greatest and most vital interest today is the Forward Movement campaign of Ohio Wesleyan university. A year and a half ago this movement was launched to obtain more and much-needed productive endowment for the institution at Delaware. Bishop and Mrs. James W. Basford of China lent the impetus to it and contributed the first \$7,000 of a conditional sum. The general education board of New York City and Andrew Carnegie were interested in Ohio Wesleyan, and the one offered \$12,000 and the other \$50,000 on condition that the complete fund be raised. Less than thirty days yet remain until the allotted time is over, April 1, and there is yet over \$50,000 to be raised. What does this mean?

What Ohio Wesleyan Is.

In the stirring words of Bishop Moore, "The Ohio Wesleyan university is the child of Ohio Methodism's heroic age. Small but heart-prompted gifts from the humble, punctuated now and then by the offerings of the rich, have enabled it to reach its present commanding state. It has enriched with its students every walk of life. The weakening or loss of no other factor in Ohio Methodism would inflict upon us an injury so irreparable as would be the impairment of the university."

Why Then the Help?

Denominational colleges all over the United States face a crisis now. The state colleges and individual colleges are being richly endowed, they are setting a heavy pace for the others in equipment and in salaries for the capable instructors. It is imperative if the colleges such as Ohio Wesleyan are to remain, combining with the best educational training it is possible to give the young men and

The Present University.

The present property of Ohio Wesleyan consists of three campuses and 29 buildings. Upon the main campus are University Hall, Sloane Library, Edwards' gymnasium, Merrick Hall of natural science, Sturgis Hall of chemistry and Elliot Hall of physics. On or adjacent to the Monnett campus are found the extensive women's dormitory, so widely known as Monnett Hall, the new Sandborn Hall of music (one of the finest buildings of its kind in the Middle West), Lyon Hall of fine arts and the Monnett Annex. On the Barnes campus are to be found the Perkins observatory and the Hartupe home for the children of missionaries. The twenty buildings and equipment carry a book value of a million and a half under the new appraisal.

A Noted Faculty.

Men of note in church and state have served on the faculty of Ohio Wesleyan. Its early teachers re-

EVEN THE MOST STUBBORN COLD EASILY BROKEN

There is not one grain of quinine in Pape's Cold Compound, which, when taken every two hours, until three consecutive doses are taken, will surely end the grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs. It promptly relieves the most miserable neuralgic pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, catarrhal affections, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world that will cure your cold or end Grippe misery quickly and without any other asperity or bad after-effects as a 25 cent package of Pape's Cold Compound which any druggist in the world can supply.

SEVEN COLLEGES REPRESENTED ON CLEVELAND TEAM

Alexandria, March 13.—Seated regularly at one table in the dining room at the Hotel Bentley are Pitcairn, Mori, Kaler, Blodding and Mitchell. Nothing very queer about that. Yes, in a way, inasmuch as each is a college graduate, each hailing from a different section of the country—De Mori from Lafayette, located at South Bethlehem, Pa.; Mitchell, from Mississippi Agricultural and Mechanical, located at Clinton, Miss.; Blodding from University of Michigan, at Ann Arbor, and Kaler from Ohio University, at Athens, O.

That fact caused some comment in the dining room, and especially as seated at adjoining tables were Fred Falkenberg of University of Illinois, Hi West of Knox and J. E. Birmingham of Cornell.

Two of a Kind.

"God bless you, my lord! You and I have been in all the prisons in London."

"What do you mean?" cried Lord George. "I never was in any prison but the Tower."

THE END OF TUBERCULOSIS

Value of Early Diagnosis.

By Dr. CHARLES L. MINOR
In any given case of tuberculosis a sensible doctor can usually tell you whether there is any chance of getting well, but it is worth remembering that quite a number of very bad and apparently hopeless cases do at times recover when it seemed impossible for them to do so. Thus, however bad the outlook, it is sensible not to give up hope, but to start right in to make the best fight you can.

In any case your chance of getting well depends largely on the earnestness of the discontent of the trouble and the courage of the patient, and a brave and determined patient with bad trouble often stands a better chance of recovery than a sick weak-willed one with much less trouble.

It Touches Ohio.

The total enrollment for the year is 1,392; in 1844 it was 110; in 1875 511; in 1890, 1,227, so that the constant and steady growth is evident. Every county in Ohio save one is represented in the student body, and eleven foreign countries are represented. Especially striking is the distribution of the students, ranging from Ohio, showing that Ohio Wesleyan is in circulation to all parts of the state, starting any other college of its size systems. A glance at the annual report will indicate graphically the widespread student constituency of Ohio Wesleyan.

An Influential Alumni.

Ohio Wesleyan has sent out almost 4,000 a unit. One-third of these have become presidents; no other institution holds so large a proportion of governors of Ohio as does Ohio Wesleyan, one in five governors or mayors; one in six gift lawyers; about the same number physicians. They have become prominent and useful in church and state, many have a national reputation. It is doubtful whether any other prominent institution in the United States has sent so many of its graduates to teaching and the ministry.

The Call.

The pressure, however, is becoming heavy. Students are crowding into Ohio Wesleyan as never before. If they are to receive training and education for which Ohio Wesleyan has stood in the past, we must find funds for additional professors, additional equipment and additional buildings. This \$50,000 is a small part of what the university ought really to have now.

Less than forty days of remnant is important that the Methodist Ohio understand the meaning of a great campaign to what Bushnell calls "The vital key of Ohio Methodism."

SUNDAY GAMES WERE PLAYED AT HOT SPRINGS

Prosecuting Attorney Could Find No County or Township Officer to Serve Warrants.

Hot Springs, Ark., March 13.—When Prosecuting Attorney J. B. Wood went scouring to prevent the Sunday ball game scheduled between the major league teams here, he could not find a county or township officer anywhere. As a result, the games were not interrupted.

The hitting of Wood was the feature of the game between the Brooklyn Dodgers and All-Stars, the getting a home triple and two singles out of four runs up. Brooklyn defeated the All-Stars 8 to 4.

St. Louis 9, Cincinnati 6.

Hot Springs, March 14.—The St. Louis Americans evened with the Cincinnati Nationals in the second game of the series here yesterday afternoon, a score 9 to 6. Loser holding on the part of the Nationals and clever pitching by Flannery, a St. Louis recruit were responsible for the Americans victory.

White Sox 13, Houston 2.

Houston, Tex., March 13.—The Chicago Americans drubbed the Houston club Sunday afternoon 13 to 2. Ed Walsh opened for Chicago, using a slow ball. After Houston had rallied twice he changed his game and for the next five innings was in trouble.

Giants 13, Fort Worth 0.

Fort Worth, Tex., March 13.—The New York Giants regular team bit freely Sunday afternoon and shut out the Fort Worth team of the Texas League by the score of 13 to 0.

PORTSMOUTH WILL UNFURL NEW PENNANT

Portsmouth, March 13.—That long awaited pennant has arrived in Portsmouth from the Spalding Company, and was consigned to President Wm. Gablerman of the Portsmouth club of the Ohio State League. The flag is conceded by the fans to be the prettiest that has ever been awarded the champs in this healthy little league. The pennant is 25 feet long, made of blue bunting, with the wavy "Champions Ohio State League 1911" embazoned in white thereon.

President Gablerman is as proud of the trophy as are the fans, and a tall cedar has been ordered for the Portsmouth ball yard.

"Peggy" Moore, the twirler who held out for more coin a few weeks back, has joined the fold. He has been hibernating in Portsmouth and feels that the effects of the cool Ohio river breezes will help him mightily this season.

IT'S YOUR NERVES THAT AIL YOU

Two well known Newark youths were placed under arrest in Zanesville on the charge of stealing an automobile belonging to the father of one of the boys, and also for violating the speed ordinance of that city. They left Newark Saturday night for a joy ride to Columbus in "father's" auto, and later drove through to Zanesville, where they were arrested, the police authorities of that city having been notified to be on the lookout for them. They were returned to Newark, Monday.

DON'T Lay the Blame to the Stomach, Blood, Heart or Bowels.

It's the nerves that are the real offenders nine times out of ten. But don't leave it to nature alone to make them well. Nature can only go so far. When that point is reached nature needs aid.

Morse's Glyceroile will do more in less time to build up your nerves and your body as a whole than any other remedy again yet discovered. It doesn't stop with leading off the heart to the stomach. It doesn't help in a little way the tired and worn-out nerves. Leaving the blood to look after itself, it grips, holds, strengthens, starts to build up, recharges and revitalizes the whole body, inside and out. T. J. Evans will guarantee it to do the job. Call him at 13dft, bring the partly-filled bottle back and get your money. But it won't fall short. Two sizes, \$1.00 and \$1.50. Be sure to ask for our 24-page book, "Do You Suffer?" It is free.

IN SOCIAL CIRCLES

Mr. and Mrs. Ben Jones have issued invitations to a number of Newark people for a party at their home in Hudson avenue on the evening of Thursday, March 16. The invitations read for cards.

On Saturday evening Miss Ethel Denning was hostess to the Philistine club, Miss Denning entertaining at her home in Buckingham street. The feature of the club is needlework and later a delicious supper was served.

The guests of the club were Miss Sarah McDonough and Miss Erma Sargent of Granville.

In Sunday's issue of the Ohio State Journal appeared a picture of Miss

Dorothy Vale, formerly of this city, but now residing in Columbus, which will be of interest to her many Newark friends. The picture is a group showing the officers of the Delta Delta Delta sorority of Ohio State University and also a cut of their new sorority house. Miss Vale is recording secretary of the sorority.

Miss Vale has recently on many occasions been the guest of Miss Spray Dounce of West Church street and many pretty parties have been given in her honor.

Miss Mary Nichols charmingly entertained the Wednesday Afternoon Thimble club at her home in Granville street on Saturday afternoon. The

Heart and Home Talks by Barbara Boyd Some Women We Ought to Know

Anne Clough and All True Teachers.

To begin with, her name was Anne Jemima Clough. And that does seem something of a handicap. Imagine the irreverent schoolboy of today with a teacher whose name is Anne Jemima! But she is not a teacher of today, and her schoolboys were English. And though boys are boys, English boys of half a century or more ago were a bit more respectful than is the American schoolboy of today.

Anne Clough is one of the women to whom a window is being placed in the cathedral at Liverpool, where one hundred beautiful windows are being put in, in honor of women.

She stands for all true teachers and it is pleasant to see teachers thus honored. For teachers as a rule are not honored as they should be. They have ever had great influence in molding a child's life, often more influence than the parents. And yet the child goes forth to his work in the world, and except now and then for a grateful thought, he rarely gives his teacher any need of appreciation or gratitude for all that that teacher has meant in his life. Almost everyone can look back to some one teacher who has been a great help and inspiration, yet how seldom is ever the teacher's name mentioned. And public acknowledgment of what the teacher has meant is almost unheard of.

But Anne Jemima Clough is being remembered, and those who see this window in her honor cannot fail to call to mind the faithful, conscientious teachers who have helped them. And thus through her all teachers are honored.

She was an only daughter and the sister of a poet. So that she was cherished as the only girl is apt to be cherished, and the atmosphere of the home was probably such as to turn her mind to serious things. Then, too, she came to this country when three years old and stayed here until sixteen, travelling considerably through the Northern States and Canada. Undoubtedly, this gave her a certain independence of thought and a broad outlook, all of which were helpful to the work she was to do.

When she returned to England, she turned her attention to the schools. She became a regular visitor at one of the large national schools, and also started a school of her own. Thus she became acquainted with teaching both from observation and experience. Travel followed, and for a while she lived in Southern Europe, where she met many women interested in education. All this was in a way the sowing of seed for her work.

Realizing more and more just what education meant both to men and women, she came back to England filled with the zeal of a propagandist. She wrote articles for the magazines, succeeded in getting up lectures, and finally was instrumental in establishing The North of England Council for the Promotion of the Higher Education of Women. From this grew the Cambridge Higher Local Examinations, first for women, and then for men. Lectures for women were established at Cambridge, and finally Anne Clough came to Cambridge herself and took charge of a house there for women students. Starting with five, the number so soon increased that no house was large enough, and Newnham Hall was built. A second building was soon added to this, and later, a third.

English women, perhaps, appreciate her efforts more than do American women, for college life in this country for women is in many ways in advance of it in England. It is, or has been, much more difficult to help forward education for women in England than in America. But from her simple, unpretentious beginning, Anne Clough did a great work.

The teacher who has some plan in mind for the betterment of her work, her school, or the cause of education, need not despair if she does not accomplish all her aims at once. Anne Clough worked through many years, unselfishly, tactfully, persistently. But she achieved her purpose at last. Development and progress are forces of the world. The one who gets in step with them is sure to march to victory.

Cream of Lettuce Soup. Pull apart four heads of lettuce, wash and drop them in a kettle of boiling, salted water. Boil uncovered for ten minutes, drain and throw into a pan of cold water. In a few minutes drain, chop fine and rub through a sieve. In a double boiler scald one quart of milk, run one tablespoonful of butter and two tablespoonsfuls of flour to a paste, add to the hot milk and stir until the mixture thickens. Add a few spoonfuls of this to the lettuce pulp, stir until well blended and add to the soup. Season to taste with salt and pepper, simmer five minutes, uncovered, and serve with croutons.

Cold Cornstarch Pudding. One pint of milk, three tablespoonfuls of sugar, three tablespoonfuls of cornstarch, one half of a saltspoonful of salt, three eggs, one teaspoonful of vanilla. Scald the milk and stir it so the cornstarch dissolves in a little cold milk. Cook fifteen minutes, then add the egg yolks and sugar beaten together and the salt. Stir until it thickens again, then add the whites of the eggs, which have been beaten to a stiff, dry froth. Mix well together and stir over the fire for one minute, then take off, add the vanilla and turn into wetted molds. Serve cold with cream.

ORIGIN OF Pinkham's Blood Purifier

Lydia E. Pinkham, of Lynn, Mass., succeeded in producing, from the roots and herbs of the fields, Lydia E. Pinkham's Vegetable Compound, the most successful medicine for women's ailments the world has ever known. After she had put this on the market, women began to write her about their health, because they felt a natural delicacy about consulting any man physician regarding these ailments for which the Vegetable Compound is intended.

She soon found that her correspondents often had complications caused by impure, impoverished blood, and she recognized the necessity of having a reliable blood purifier which she could recommend with confidence as

The Best Spring Medicine

Then, as now, there were many blood purifiers and spring medicines on the market, and after looking into them, she found nothing so good as the old home medicine made from roots and herbs, which she had been accustomed to use in her own family, so she had this made up on a large scale, and furnished it to the stores. It has been very little advertised, but has attained a large sale solely on its merits, and is really a wonderful blood purifier and spring medicine.

It is a good, old-fashioned household remedy made from roots and herbs, which has been used from generation to generation for purifying the blood, removing humors and eruptions, and for that all "played out" feeling.

WHY DON'T YOU TRY IT?

PRIVATE THEATRICALS AT THE LOAN EXHIBIT

"Where am I going Wednesday evening?" "Why, to the Library Loan Exhibit to be sure, to see the 'Old District School' entertainment given by the combined talent of all the clubs of Newark.

The school master is none other than the Rev. Joseph A. Bennett, which is proof enough that you will get the worth of your money.

He assures us that his school is full of dramatic feeling and that merely to hear the twins recite is worth the extra quarter that will be asked for this special entertainment. A highly instructive dialogue is a great feature of the evening. Mrs. U. O. Stevens is in the secret but refuses to divulge.

There will be many songs, "singles and doubles," that will be simply side-splitting. No one can afford to miss this the closing and fitting finale of the great Loan Exhibit—the one that made Newark famous.

WHY HESITATE?

An Offer That Involves No Risk for Those Who Accept It.

We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They will positively overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Sold only at our store—the Rexall Store, Hall's Drug Store, 10 North Side Square.

DON'T WANT THE LYNCING CASES

Attorney Ott Beals of Pickerington, Fairfield county, was attending to some legal business in common pleas court in Newark Monday morning. In conversation concerning the change of venue in the Lewis Bolton case, he said:

"Well, we don't want it sent to Lancaster if a change of venue should be granted, and the judge said last Saturday that he did not want any of the lynching cases sent there for trial, in case they were not tried in this county."

JUST LISTEN TO JIM HAM; CALLS SHAVE IMMORAL

J. Hamilton Lewis, better known as "Jim Ham," has made the announcement that shaving is immoral. "Man was born to raise a beard," he declares, and he sticks by his convictions. The amount of hirsute adornment he sports is pretty well above the average, so, according to his way of thinking, he sits in the front row in the moral class. "Jim Ham" is a bit of a politician, and while his statement probably will alienate the barber vote, it will take well with the Populists.

Humanity in War.
The first man, so far as history can speak on the subject, to do anything to mitigate the hardness of the usages of war was Marcus Aurelius, the noblest of the Roman emperors. Of this illustrious man De Quincey writes, "Marcus Aurelius first resolutely maintained that certain indestructible rights belonged to every soldier simply as a man, which rights capture by the sword or any other accident of war could do nothing to shake or diminish." Modern humanitarianism in war dates from about the beginning of the eighteenth century.

The Life Of The Wood

To whom shall we look to lengthen MAN'S life? To the doctors and scientists, who devote their days and nights to study of the human body and its needs.

To whom then shall we look to lengthen the life and beauty of wood and the many things made thereof?

To men who have given years of study and practice to the treatment of wood surfaces.

Such men are we. For years we have met the exacting demands of furniture makers for finishes that combine iron wearing qualities with the most artistic and delicate non-fading colors.

Out of years of experience we evolved

Daddy's Bedtime Story — The Humming Bird And the Butterfly

"**C**HILDREN," asked daddy one evening, "did you ever see a humming bird?"

"Not I," said Jack. "Nor I," said Evelyn.

"They are very small birds, hardly bigger than some insects. Their feathers are very brightly colored, and they have long, thin, sharp bills. They live only in warm parts of this country. This is going to be a story about a humming bird which was very proud of its pretty feathers and its bill and its ability to fly very swiftly from flower to flower to catch the tiny insects on which humming birds live."

"One day this humming bird was resting on the branch of a bush. Near by the bird there was a gray caterpillar, a homely thing with funny looking hairs all over its fuzzy body. It was a friendly caterpillar, and it said to the humming bird:

"Good morning. It is a nice, clear, warm day, isn't it?"

"But the humming bird only looked at it and sniffed. I am sure that if it had had a nose it would have turned it up at the poor caterpillar. The very idea," said the bird, "of a queer looking bug like you daring to speak to a pretty, bright humming bird like me! I don't like your company, so I'm going to fly right away from here to some place where I won't be troubled by creatures like you!" And she flew away to another bush."

"Of course the poor caterpillar felt hurt. He had not intended to force his company upon the humming bird. He had meant only to be friendly. But he did not say anything. He knew the time was coming when he should be as good as the humming bird."

"Some weeks after that time the humming bird met a large, beautiful butterfly with splendid markings on its wings. That butterfly would make a good friend for me," said the humming bird. "It is almost as beautiful as I am." So it asked the butterfly to be friends. But the butterfly said:

"I cannot think of it, for you said once that I was only a queer looking bug and not fit to associate with a bright, pretty bird like you."

"Why," said the humming bird, "I do not remember saying anything like that to you. Indeed, I do not remember ever seeing you before today. I have always been very fond of such bright looking creatures as you are."

"Perhaps you are," said the butterfly. "But at the time when you insulted me I was only a queer looking, fuzzy caterpillar. Let me give you a piece of advice—never insult any creature just because you think you are superior to it. Some day it may become equal to you or better than you."

AMUSEMENTS

As Told in the Hills.

Novelty is Alex Story's watchword, and in this season's production of "As Told in the Hills," he promises a feature of great interest.

Prize fighters have appeared as prize fighters, real burglars as house breakers, firemen as fire heroes, but Alex Story gives them one better. The leading part in his big production of "As Told in the Hills," that of an Indian maid, is actually played by a real live Indian.

The management has booked this attraction at the Auditorium theatre on Thursday, March 16.

The Man on the Box.

One of the prettiest of dramas has been culled from the work of fiction by Harold McGrath, "The Man on the Box." The play retains all the delightful incidents of the story and places them considerably in a dramatic way. The leading role of the society young man who plays footman to his lady love, who, however, he has never had the pleasure of meeting, is taken by John Meehan, and Mr. Meehan is supported by an excellent company. "The Man on the Box" will be seen at the Auditorium theatre on Friday, March 17.

The Climax.

It is a positive relief to welcome the return of such a clean, wholesome and remarkable play as "The Climax," which comes to the Auditorium theatre on Saturday, March 18, for two performances. If there is such a thing as pride in the breast of Joseph M. Weber, who produced it and Edward Locke, its author, they should be looked upon as heroes in the cause of advancement and elevation of the drama. "The Climax" being one of the purest plays ever seen on our local stage. The author has used mental suggestion as his theme. The situations are intense and natural, with an unusual comedy relief.

The Spendthrift.

After Porter Emerson Browne wrote "A Fool There Was," the stirring drama in which Robert Hilliard has been starring for three seasons, he set about to write a "bigger" play — one that more nearly reflected actual conditions of present day life and which might possibly point a remedy for what has been called one of the biggest American evils — extravagance. The result of his efforts was "The Spendthrift," the play that is coming here with record or a hold on the New York theatre-going public that even the heat of the worst summer nights could not quench. "The Spendthrift" will be presented at the Auditorium theatre with the same cast and production that presented it in New York.

The Merry Widow.

Henry W. Savage's famous New York company will offer "The Merry Widow" at the Auditorium theatre on an early date. Concerning "The Merry Widow," it is unnecessary to speak in detail. It is enough to note that not only has Franz Lehár's brilliant works captivated the American music-loving people as has no other operetta in the memory of the present generation, but that all Europe has likewise fallen under the magic witchery of these stirring and haunting melodies. Mr. Savage is offering the patrons of the Auditorium theatre the same cast and production, consisting of 70 people, 3 carloads of scenery and properties, and the notable English grand opera orchestra, that is appearing in Chicago at present at the McVicker's theatre.

Madame Sherry.

One of the biggest things to be offered this season by the management of the Auditorium theatre is the big French vaudeville, "Madame Sherry," which has met with unprecedented success in Chicago and New York. This big production will be at the Auditorium theatre for one performance.

Orpheum.

Downey, Willard & Swain present a comedy playlet, "A Call on the Doctor," which is full of comedy. There are three characters, an aged physi-

Prof. Jack Wallace and his troupe of trained Australian cockatoos, featuring White Eagle, are a great novelty. The Keltimers, in a singing and talking act, introduce plenty of good singing and comedy. Princess Regina in a musical specialty will please music lovers. Orpheum-scope will have two feature films.

MORE DEAD FLIES IN THE PRECIOUS OINTMENT

Pastor Russell Points Out More Deceptive Additions to the Word of God Contained in Our Common Version Bible, But Shows to Be False Because Not Found in the Oldest Greek MSS.—One of These "Flies" Has Moulded Accepted Theology—Dead Flies Cause the Apothecary's Ointment to Stink (Ecclesiastes x, 1).

Not long ago I pointed out that the last twelve verses of St. Mark's Gospel in our Common Version are spurious—so recognized by all scholars, because these verses are not to be found in any of the oldest Greek MSS. and were evidently added to the Word of God in the seventh century or later. Moreover, we gave proofs of the untruthfulness of this addition. Is it true that whoever believes the Gospel of Christ may handle serpents with impunity and may drink deadly poison without harm? Surely not. It is nothing short of a sin for those who know better to acknowledge these verses and to use them to bolster up theories of Divine Healing. It is as much a crime to add to the Word of God as to take away from it.

Today I invite attention to some other dead flies, some other additions to God's Word, which have had much to do with twisting the theology once delivered to the saints. Take, for instance, the closing words of the Lord's Prayer:

"Thine is the Kingdom and Power and Glory."

These words, if uttered by our Lord, should be found in the old Greek MSS. But they are not found therein. They are, therefore, to be rejected as additions made by people centuries after Matthew's Gospel was written. These words were introduced when the faith of the Church respecting the Kingdom of Messiah was changed or changing from what it was originally. All through the New Testament the Second Coming of Christ in power and glory to establish His Kingdom and to glorify the Church, His Bride, is set for the end of this Gospel Age. But as the time grew long a change of sentiment came into the Church. It became popular and rich. Its bishops were respected. Finally the theory prevailed that God did not intend to delay the establishment of the Kingdom until the Second Coming of Christ, but did intend to establish it in the hands of the Church during this Age and to use the Church for the conquering of the world and the fulfilling of all the promises of the past.

In line with this the most prominent bishop of the time was recognized as Divinely appointed to represent Christ in the world and to reign over the nations in His stead and to bring about the Millennium, etc. This was the Bishop of Rome, who subsequently was styled the Pope and who claimed and was accorded the honorable title, "Vicar-gerent of the Son of God." It is said that the equivalent of this title to this day is worn by the Pope on his tiara or three-crowned hat—Vicarius Fili.

Thus the change came in the general sentiment of the "Christian world." Messiah's Kingdom was no longer to be looked for as coming, but was to be recognized as here. The Pope, as Messiah's reigning representative, was to be acknowledged. All Kingdoms that were to honor and obey Messiah were commanded to honor and obey the Pope. The various prophecies which tell of Messiah's Kingdom glory were applied to the Pope, and are still so applied.

As Messiah was to ride forth conquering the world and "wound the heads over many peoples," so the Popes in succession sought to do, to fulfill these prophecies. As the inauguration of Messiah's Kingdom is promised to be in the midst of a time of great trouble, it was not thought improper that Papacy should cause great trouble in the world in its endeavor to establish itself as the Kingdom of Messiah. As whosoever would not receive Messiah was to be "destroyed from amongst the people," it was not considered wrong to destroy those who rejected and opposed the Papal Kingdom and to give them to the burning flame.

"Thy Kingdom Come on Earth."

The Lord's prayer was already in the Scriptures, and was known to many. It could not be eliminated. But some zealous person, fully believing that God's Kingdom had come, felt justified in amending the prayer to correspond to what he supposed were the facts. Hence the prayer which begins, "Thy Kingdom come," is made to end by saying, "Thy Kingdom has come in its glory and power."

If Papacy is the Kingdom of Messiah, it is certainly not what the Jews expected. It is certainly not what we expected. It is certainly not what the masses of mankind had any reason to expect, although it is so accepted by the majority of Christendom.

Although our protesting forefathers broke away from the Pope and denounced him as Anti-Christ and declared that he falsely sat in the place of Christ without authority, they nevertheless were imbued with the same error. They did not think to go back to the message of the Scriptures and to look for the Son of God to set up His Kingdom at His Second Advent and then to bless Israel and the world through His glorified Church. Instead they held to the Papal theory that God's Kingdom was set up and was conquering the world, and that thus

the Messianic reign mentioned in the prophecy is being fulfilled. They hold that Christ himself is the invisible King but that the Pope is not authorized to represent him. Hence this spurious addition to the Word of God is as acceptable to Protestants as to Catholics; indeed more so, if we may judge by the fact that the Catholic Bible omits the spurious words, while the Protestant Bible quotes them.

We here remark that according to Protestant theory Messiah's Kingdom is represented in the civilized nations of the world, especially of Europe. These all claim to reign "by the grace of God," in which case, of course, wars and battles between them are conflicts between the various parts of Messiah's Kingdom. And present military preparations on land and sea portend a most sanguinary conflict between these "kingdoms of this world," which think themselves and are called by Christendom "kingdoms of God."

How glad we are to see the Truth on this subject; that the Kingdom of God's dear Son has not yet been set up, in any sense of the word—that it is still future. It cannot be set up until this Gospel Age ends and the "elect" saintly few of every nation—Jew and Gentile—shall be changed from earthly to heavenly nature by the First Resurrection, which will qualify them to be kings and priests unto God and unto Christ and to reign with Him a thousand years" (Revelation xi, 6).

It is well that all Bible students should mark this "dy" and extract it from the Precious Ointment, and notice how much sweeter and fresher the Lord's prayer is to them forever.

"Oh, What a Whopper!"

Thomas Paine was an enemy to the Bible and to the Christian religion, but largely so, we believe, on account of his poor understanding of it. And his misunderstanding of the Bible was largely due to the false doctrines handed down from the "Dark Ages" purporting to be biblical. Who cannot sympathize with the great infidel, Thomas Paine, who, when reading the last verse of St. John's Gospel, exclaimed, "O, what a whopper!" It reads, "And there are also many other things which Jesus did, the which, if they should be written every one, I suppose that even the world itself could not contain the books that should be written" (John xxi, 25).

(3) The third of these oldest known Greek MSS. of the New Testament is styled the Alexandrine, because it was found in Alexandria in Egypt. It is now in the British Museum, where any visitor can behold it in a glass case. It is supposed to have been written about A. D. 450. The readings of all three of these Greek MSS. can be secured and the variations between their readings and our Common Version are so simply arranged as to leave no excuse for ignorance on the part of Bible students. Our Common Version with notations of these MSS. can be obtained through any bookseller.

A Responsible and Sacred Trust.

Tischendorf, writing respecting these ancient Greek MSS., says:—

"To treat such ancient authorities with neglect would be either unwarrantable arrogance or culpable negligence. Indeed, it would be a misunderstanding of Providence if, after all these documents had been preserved through all the dangers of fourteen or fifteen centuries and delivered safe into our hands, we were not ready to receive them with thankfulness and thirsting for the Truth respecting the Bible—the Christian's spiritual food and drink. To the claim that many read my sermons instead of going to Church the answer is, that Pastor Russell is preaching to the non-church-going ten millions who are in the majority and that it beboths the ministers to provide for their people the spiritual food for which they are famishing, if they would not lose them all."

Another Big Fly.

To the credit of such men as Luther, Calvin, Knox, Zwingli, Wesley and others living prior to our day we must explain that they had no opportunity for knowing of the spurious passages of the Scriptures. They, therefore, have no responsibility such as devolved upon ministers of our day who do, or should, know all about these matters. We cannot on this occasion make further investigation, take out more of these dead flies; but, the Lord willing, at some future time I John v, 7, will have our attention. It is worthy of it. It has caused the Ointment to stink and has confused the minds of many of God's dear saints by the way in which the error in this case has been interwoven with the Truth.

My hearers should bear distinctly in mind that what I am here presenting is not at all in line with the presentations of the Higher Critics. Their method is to read through the Scriptures and judge of them by their own keen intellectual powers, and thus to discriminate between which were written by the Prophets credited, and which were additions. Their Higher Criticism claims a keener scent or mental discernment than ordinary mortals enjoy, by which they know these things whether others can see it or not.

I resent Higher Criticism and accept the Word of God in full. I reject nothing because of my own or other men's surmises, but merely go by the facts. If the oldest Greek MSS. do not contain certain passages of Scripture, how could they get into later MSS. except as spurious additions?

Nor should I be considered as faint-hearted with our Common Version of the Bible. While it is not without its faults, it has so many excellent qualities and beautiful translations that I prefer it to any other and generally use it. But I must not, I cannot, approve those portions of it which all orthodox scholars admit to be spurious. We must not handle the Word of God deceitfully. If we do we must expect darkness instead of light, confusion instead of harmony.

Our Bible's Ter-Centenary.

Just three centuries ago our English Common Version Bible was published.

This year its Ter-Centenary is celebrated. It is a grand book. It has done a grand work. The fact that it is not perfect must not condemn a work possessed of so many glorious qualities. It was the result of seven years' labor on the part of forty-seven persons learned in the languages and appointed by King James of England for its preparation. They labored to some disadvantage by reason of the command given them to follow an earlier translation styled, The Bishop's Bible, and to alter it as little as the original would allow. They were also instructed that if the Tyndale, Coverdale, Matthew, Cranmer or Whitechurch translations and the Geneva Editions agreed better with the text, theirs should be accepted as instead of the Bishop's. The translation was, perhaps, the best that could be made at the time.

Published by kingly authority, it is now venerated by English and American Protestants as though it had come direct from the finger of God. This is a mistake. We are to worship God and to reverence His Word and to search as carefully as possible to have the precious Ointment provided by the spirit of the Truth free from all dead flies—free from all human additions and mistranslations and superstitions of the "Dark Ages."

The basis for our Common Version was the Latin Vulgate, which was diligently revised and compared with the Greek MSS. of the time. But there were few Greek MSS. known at that time, whereas at the present time there are over 700. Three of these are quite ancient.

(1) The Sinaitic MS., found in a Convent on Mt. Sinai so recently as 1800.

This is acknowledged to be the oldest Greek MS. known in the world.

Its date is estimated to be about the year 331 A. D. This MS. is now in the possession of the Russian government at St. Petersburg.

(2) The Vatican MS., 1209, is credited with being next in age. It was found among old MSS. in the Vatican Library and is still there and catalogued.

The date of its writing is estimated to be about the year 330 A. D.

(3) The third of these oldest known Greek MSS. of the New Testament is styled the Alexandrine, because it was found in Alexandria in Egypt. It is now in the British Museum, where any visitor can behold it in a glass case.

Surely any one of reasoning mind should see the absurdity of such a statement. Surely all Christian ministers should have informed the Lord's sheep under their care respecting what is and what is not the Word of God, the Bible, as it was recognized by the Apostolic Church and written down in the original Greek manuscripts. Why any Christian minister should assail me because I endeavor to do for the people what he has neglected to do I cannot understand. I must leave it to the Lord to judge between us. I am informed that hundreds of ministers went to the Editors of the papers which publish my sermons weekly and endeavored to have them discontinued their publication.

But the Editors perceive that their readers are no longer under the bondage of the "Dark Ages," but have begun to think for themselves, and that many of them are hungering and thirsting for the Truth respecting the Bible—the Christian's spiritual food and drink. To the claim that many read my sermons instead of going to Church the answer is, that Pastor Russell is preaching to the non-church-going ten millions who are in the majority and that it beboths the ministers to provide for their people the spiritual food for which they are famishing, if they would not lose them all.

The Truth in the Love of It.

The Lord speaks of some who receive not the Truth in the love of it, and tells that they ultimately will be ensnared by the Adversary. Evidently heart-honesty is one of the most precious elements in the Divine sight. It is not sufficient that we should be Christians in name merely and with form and ceremony. It would not be sufficient in the Lord's sight that we should worship sect or party or even the Bible. It is the Divine Truth that we must reverence next to the Divine person.

It is not sufficient to have Bibles on our center tables merely, nor sufficient to carry them under our arms. We must "eat" the Word of God—that is to say, we must, as spiritual children of God, feed upon His message. And this truly implies careful discrimination to discern between God's inspired Revelation and all human additions and admixtures. There is, therefore, a difference between reverencing and loving the Word of God and reverencing and loving a particular translation, errors and all.

"Thy Word is Truth."

Our Master's prayer for all of His true disciples, or footprint followers, was and still is, "Sanctify them through Thy Truth; Thy Word is Truth." Whoever would have the sanctifying influence of the Divine Word should so far as possible rid himself of every unsanctifying admixture of human tradition and interpretation. The true sanctification or setting apart of the heart to know and to do the Lord's will could not be content to accept with the sanctifying Truth deluding errors, chaff and son-

seeds.

If thousands are turning away from the Word of God in full, I reject nothing because of my own or other men's surmises, but merely go by the facts. If the oldest Greek MSS. do not contain certain passages of Scripture, how could they get into later MSS. except as spurious additions?

Nor should I be considered as faint-hearted with our Common Version of the Bible. While it is not without its faults, it has so many excellent qualities and beautiful translations that I prefer it to any other and generally use it. But I must not, I cannot, approve those portions of it which all orthodox scholars admit to be spurious. We must not handle the Word of God deceitfully. If we do we must expect darkness instead of light, confusion instead of harmony.

maiden will represent the division of

of American troops under the command of

of "Mad Anthony" Wayne of Revolutionary fame.

First Expedition Slashed.

At Fallen Timbers 1800 Ohio and Kentucky troops were engaged by more than 2000 Indians, assisted by many English and Canadians armed with muskets. General Wayne's expedition, which fought this battle, was the third to have been sent against the Indians within two years by General George Washington, between 1791 and 1793. The first of these, in command of General St. Clair, was ambushed and slaughtered to the last man by a horde of Indians at what is now Ft. Recovery, Ohio, while the second, under General Hamer, one year later failed utterly of its purpose.

At this time Tecumseh was but a young Delaware brave, and Red Jacket, The Crane and other Indian names were words of terror among the white inhabitants of Northwestern Ohio.

After the battle of Fallen Timbers has been enacted a period of 20 years will be passed over and the battles of Ft. Meigs and Ft. Stephenson will be entered into. The Manoeuvres of Ft. Meigs on the Maumee river, will include the sham battle on the ground where the Dudley massacre took place in 1812, and immediately following this the troops will be dispatched to Ft. Stephenson at Fremont, Ohio, where the valiant defense of that fort will be re-enacted.

This is the battle for which General Harrison, later President of the United States, was severely criticised. It being said of him that he did not hasten to reinforce the garrison of Fort Stephenson when he learned that the place was besieged by Indians and British gunboats, but waited until he learned that the attack had been repulsed before he would march forward.

Following this within a few days came the Perry victory of Lake Erie, and it will be reproduced just as it happened, near Put-in-Bay Island, The Kentucky Commissioners of the Exposition are desirous of having the Battle of the Thames re-enacted, though this did not happen until the October following the Battle of Lake Erie. In this battle the regular army of the United States, with a body of Kentucky volunteers under Governor Shelby, the whole army being commanded by General Harrison, defeated the British and Indians, who still had the right to possess this area.

This is why the Indians were always in the area of ground to the Indians if they would assist them in the fight against the Americans, whom the English represented as cruel invaders who were robbing the Indians of their rightful property.

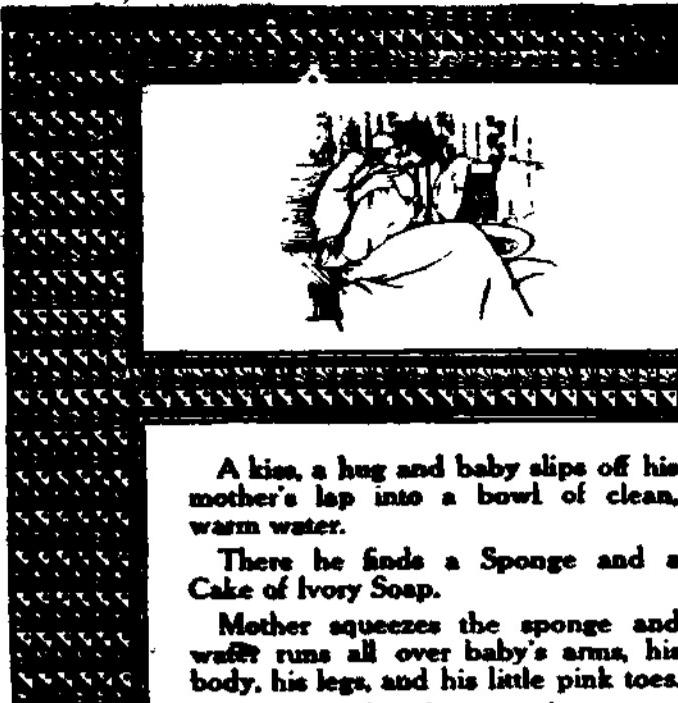

That is why the Indians were always on the British side. They hoped to regain their holdings of land. As they were pushed backward they were forced to conflict with other hostile tribes, so that warfare with other Indians decimated them and left them wishing for the peaceful times they had known on their own land in Ohio and the East.

The committee will make this tentative program known to the chief of staff of the regular army and to the War College as soon as possible and they will be requested to plan some mode of carrying out the program. It is hoped that the usual appropriations used for the annual maneuvers of the regular army in connection with the National Guard of Ohio, Michigan and Kentucky will be made available by the War Department for the maneuvers outlined in the program.

At least a million dollars are expected to be available for the Perry memorial celebration, and if additional appropriations can be had from the War Department, the naval and military programs can be carried out and made the most elaborate ever held in connection with such an event.

The naval program includes the departure of the British fleet from old Ft. Detroit and its appearance in the siege of Ft. Meigs on July 29, 1813. The ensuing siege of Ft. Meigs lasted nine days, when the British fleet withdrew, sailed to Sandusky River to Ft. Stephenson. Here General Proctor's army was landed and besieged the fort for two days, but was disastrously repulsed by the gallant force of Major George Croghan. After that the British fleet withdrew to Detroit again, remaining there until it sailed forth to do battle at Put-in-Bay Island.

The naval program includes the departure of Commodore Perry's fleet from Erie, Pa., and proceed toward the battle ground of the lake. Meanwhile Commodore Perry's fleet will set out from Erie, Pa., and proceed toward the battle ground of the lake.
